

HIGHLIFE® COLLECTION

Your Hot Tub Experience

Imagine The Possibilities...

It is 6 o'clock in the morning. You admire a rising sun as your day begins in your Hot Spring® spa. The rigours of your everyday life are on pause.

Surrounded by nature.
You think to yourself... life is good.

As the makers of Hot Spring spas, we are passionate about your hot water experience. As hot tubbers ourselves, we know how much better you feel when you spend time in your spa. By making your hot tub a part of your daily ritual, you can get more out of each day. That is why we are committed to providing you with The Absolute Best Hot Tub Ownership Experience™, so that you can be at your absolute best every day.

This is your moment

“Just 15 minutes is an amazing stress eraser, and it has quickly become an important part of my routine. It really helps me feel and be my best.”

– Vanguard™ owner

“Your aches and pains vanish when you spend even 15 minutes in your Aria hot tub at the end of the day. One of the best investments we have ever made in our health and well-being.” – Aria™ owner

Wellness Awaits You

An important part of a healthy lifestyle, your Hot Spring® spa can become your massage therapist, or even your life coach. All of this culminates in one spectacular experience that you can enjoy as often as you like... just step outside your backdoor.

Make your personal wellness a priority with a HighLife® Collection spa in your garden. Immersed in the warm water, your body responds physiologically – your body temperature rises, your blood flow increases which improves circulation, and the buoyancy of the water makes you feel weightless, relieving joint stress. As a result of all these physiological changes, like magic, you feel better mentally, physically, and emotionally.

Take care of yourself

Better Than Dinner Table Conversations

Perfectly relaxed, your family is at ease and the conversation begins to flow. No one is texting, tweeting, or checking email – the smart phones have been left inside. A sense of gratitude sweeps over you as you realise your life becomes fuller and your relationships grow stronger with every moment spent together in your Hot Spring® spa.

Hot Spring owners are often surprised by the benefits of spending time in their spa. They expect soothing massage from the jets and stress relief from the calming warm water. They do not expect to find that their relationships improve, too. One long time Hot Spring owner called this experience “hydrotherapy for the soul”.

Your guard comes
down, your family
opens up

“Best purchase ever. Many quality family talks and we love that the kids bring their friends to our house for entertaining.” – Grandee™ owner

“This is my second Jetsetter spa. I love the intimacy of the tub, sharing it only with my wife. Watching the stars is truly heaven.” – Jetsetter™ owner

The Greatness Of Nature

These days we spend most of our lives indoors – in offices and classrooms, in cars as we commute to and from work and school, in the house doing chores, watching TV, or on our mobile devices. When was the last time you spent some time in the great outdoors?

One of the best parts of owning a Hot Spring® spa is the time spent outside. Settle into the warm water for the first falling snow. Count shooting stars with your kids on a dark night. Breathe in the autumn air as the leaves begin to change. The contrast between the cool air and the hot water makes you feel alive. As you relax in your spa, you find the time to recognise how much beauty has been right in front of you all along.

*Experience the night
sky like never before*

A Promise You Can Believe In

We realise that you have choices when it comes to selecting a spa brand. We want you to know that, as the makers of Hot Spring® spas, we do things differently, from the way we build our spas to our customer care.

We invest in quality and we are committed to providing you with The Absolute Best Hot Tub Ownership Experience™ so that you can enjoy the benefits of owning a spa every day for years, and even decades, to come. But, we do not expect you to take our word for it. We asked the people who know us best – our owners – to share their experiences.

Here is a sampling of what Hot Spring owners have to say about their Highlife® Collection spa:

“This is our third Jetsetter™ and we love them. Best jets, best energy, best service. Get one. You will be amazed. Life changing.”

“This is my third Hot Spring Spa, had two Classics before this one. Best money ever spent... I am in it, if not daily, several times a week. Wife said she would bury me in it. Fine with me.”

“This is our second Hot Spring hot tub. Our first one lasted 19 years and was still running... My husband and I look forward to our relaxing, quality time together in the spa about 5 nights a week!”

“In 1996 we purchased a used Hot Spring spa and since then we have used it almost every night for 30 minutes. After 17 years we decided to trade it in for a new Prodigy™. The only way to relax.”

“Water care is easy. Energy usage was exactly as advertised. Quality is excellent. My fear was we would stop using it after the novelty wore off. We still use it 4-5 times a week!”

“Best money I ever spent. I go in every morning and every night. Love how easy the salt water system is to take care of, so worth the money. I am a very happy hot tubber!”

“I use my 2004 Jetsetter daily, when I wake up and to go to sleep. I love the dependability; it is always ready for me no matter the time of day. A top notch quality product that I can create memories in daily.”

“Our spa is great - always ready, always clean, and SO relaxing after a long day at work. Have not noticed a difference in my electricity bill. My wife and I both say we should have purchased this spa years ago.”

EVERY DAY MADE BETTER™

Hot Spring® is a registered trademark of Hot Spring Industries, Inc. All other trademarks are the property of their respective owners.

REVOLUTIONARY NEW SPA DESIGN

Hot Spring® Collection, now designed with Pro Series™ for superior performance and energy efficiency.

Expertly Designed

Designed by

Designworks
A BMW Group Company

With help from world-renowned design experts at Designworks, a BMW Group Company, we set out to redefine the way a hot tub looks in your garden. Using a blank canvas approach, the Hot Spring® design team and Designworks developed an entirely new, integrated design that makes a Hot Spring spa look more like an exquisite piece of furniture and a beautiful focal point in your outdoor space.

Waterfall Corner Design

At each corner, a waterfall-like detail gives the impression that the shell is flowing over the cabinet, and helps visually integrate the shell and cabinet.

Moto-Massage™ DX Jet

This signature jet offers a bold new look. Colourful light shines brightly through the frosted acrylic faceplate. The comfortable pillow complements the trapezoidal design used throughout the spa's interior.

An unparalleled hot tub experience

Form Follows Function

Every feature of the visually stunning Highlife® Collection has been thoughtfully designed. Simple, elegant and functional, you will find that your Highlife Collection spa seamlessly integrates into your home and your life.

Beauty is in the detail

Beautiful, Comfortable Shells

Every Highlife® Collection spa shell has been designed to deliver a better spa experience.

- 🌀 Sculpted seats cradle your body in a natural position.
- 🌀 Spacious shell design minimises overflow and helps keep more water in the spa.
- 🌀 Clean lines along the bartop leave ample room for drinks.
- 🌀 Elegant styling is incorporated throughout the spa's interior.
- 🌀 The unique footwell pattern feels great on your feet.

Water Dances

Enhance your hot tub experience with the sights and sounds of the exclusive BellaFontana™ water feature. Three colourful backlit arcs of water converge to create this elegant fountain that you will enjoy from inside or outside your spa. Included on most Highlife Collection models.

Light Your Night

Create subtle lighting on an otherwise dark night, or a medley of colour for your next outdoor gathering. Our multi-zone Luminescence™ lighting system lets you easily select custom lighting to suit your mood.

Completing the Vision

Even seemingly minor details, like the air control and diverter levers, were re-engineered to work in harmony with the overall design.

Contemporary Cabinet and Shell Design

Stunning Cabinet and Shell Colours

The colour, finish, and materials experts at **Designworks, a BMW Group Company** helped us carefully select a distinctive palette of cabinet, shell and cover colour options. Every colour decision was carefully considered in order to complete the overall design.

Crème shell/Teak cabinet

Everwood HD

Your spa cabinet is typically the part of the spa you see most, yet it is among the least talked about features – until now. We pioneered the concept of synthetic wood siding for easy care almost two decades ago, and have created the next generation – Everwood™ HD. This high-definition finish offers a richer wood grain, along with the low-maintenance and durability of our original Everwood.

Elegant Shell Colours

With expert insight, we selected three shell colours specifically for the Highlife® Collection: Alpine White, Crème, and Ice Grey. These elegant neutral tones have broad appeal – ranging from traditional to modern tastes. Choose the Platinum shell for a silver matte finish or Tuscan Sun for the rich look of granite. The Desert shell is perfect for those who prefer a more textured finish.

SpaStone Siding

If you prefer a stone finish, our beautiful SpaStone™ siding is available on the Grandee™, Envoy™, Aria™ and Vanguard™ models. This faux stone siding emulates the look of natural stacked stone, and is offered in two shades – Earth or Grey.

Covers

Every Highlife Collection cover is UL classified in accordance with ASTM safety standards. Child-resistant safety locks can be locked with a key. Reinforced, adjustable straps help keep your cover securely in place.

Massage That Makes Your Day

Working late. Long commutes.
Tough workouts. Long runs.
Sore back. Achy muscles.
Football practice. Homework projects.

When the realities of life take their toll on your mind and body, let the soothing jets of a Hot Spring® spa relieve the physical and mental stress that can wear you down. The warm water and massage of a Hot Spring spa can become an important part of your everyday wellness routine, helping you feel your very best.

Unparalleled Massage

A back *massage* like no other

Moto-Massage DX Jet

More than 30 years ago, we patented the very first moving hydrotherapy jet. Today, our next-generation Moto-Massage™ DX jet still provides Hot Spring owners with an unparalleled hydromassage experience.

Exclusive to Hot Spring, the Moto-Massage DX jet delivers two powerful streams of water that sweep up and down the entire length of your back. Meanwhile, four Precision™ jets positioned above every Moto-Massage DX jet vigorously massage your neck and shoulders. Together, these jets work in harmony to melt away tension and soreness.

All jets are not created equal

*A hydromassage experience
that cannot be beat*

SoothingStream™ Jet

A broad stream of water is dispersed through 12 ports to gently relieve tension in your shoulders and upper back.

FootStream™ Jet

Our most powerful jet is strong enough to provide relief to aching feet and release tension deep in your lower back.

Rotary Hydromassage Jet

A powerful rotating stream provides a deep massage to all parts of your back.

Highlife® Collection spas feature up to seven different jets – in addition to the exclusive Moto-Massage™ DX jet. In order to provide the right amount of pressure and massage for different muscle groups, each jet provides a distinct experience. Trust us when we say, “When you get out of your spa, you do not feel the same as you did when you got in.”

Feels Just Right

Create the perfect amount of pressure with our ComfortControl™ system. Simply adjust the strength of each jet by rotating the jet face or turning the bartop air control levers. To help you save on energy costs, our SmartJet™ system allows you to direct power to specific groups of jets, instead of powering all the jets at the same time.

Directional Hydromassage Jet

Customise your massage by directing a powerful flow of water where you need it most.

Hydrostream™ Jet

This mid-sized jet creates a high- pressure massage.

Rotary Precision™ Jet

Like the fingers of a masseuse, the rotating nozzle focuses on delicate areas like your wrists. (On select models)

Directional Precision Jet

Relieve tension in targeted areas of your back, neck and calves.

Water care that is simply brilliant

ACETM
SALT WATER SYSTEM

Spend more time creating memories and less time caring for water

ACE Ready

This highly effective, low-maintenance salt water system is a Hot Spring® exclusive that saves time, chemicals and helps spa water last up to 12 months*.

Exclusive, patented ACE Salt Water System

Optional on all Highlife® Collection spas, this revolutionary, low-maintenance system cleans the water automatically. With sparkling water that is ready whenever you are, you will spend minimal time caring for water and more time in it. That helps you get the most from your Hot Spring® spa... and from every day.

More Natural

Enjoy fewer chemicals and more natural spa water. Only the ACE® System creates “active oxygen” and other powerful cleaners from just a little bit of salt and your spa water. So, there are fewer chemicals added.

Simple Care

With easy-to-care-for spa water that looks, feels and smells great, you will spend more time in a Hot Spring spa.

Feels Better

Forget about the dry skin, irritated eyes or chlorine odour. Using patented diamond technology, only the ACE System eliminates contaminants that impact water quality.

**Visit HotSpring.com/save-water to learn more.*

Always Filtered, Always Sparkling

Crystal clear spa water is essential to your spa experience, which is why we put so much thought into developing technologies that help ensure your spa water is always filtered and ready for you.

No-Bypass
Filtration

Only Highlife Collection spas include up to five filters enabling all the water to pass through the filters, even when the jets are running.

100% No-Bypass Filtration

All the water in your Highlife® Collection spa is filtered all the time. In other spas, water bypasses the filters when the jets are on – which is when you need filtered water the most. Our Highlife Collection spas include up to five filters enabling all the water to pass through the filters, even when the jets are running. Highlife Collection spas are the only spas with 100% no-bypass filtration.

Tri-X Filters

Tri-X™ filters use exclusive three-dimensional technology to filter significantly more water than standard paper filters – which makes them an important part of our 100% no-bypass filtration system. Plus, they are longer lasting, and dishwasher-safe for added convenience.

EverFresh Water Care System

Our Everfresh™ water care system combines three elements – ozone, silver ions and MPS non-chlorine shock – to safely sanitise spa water using a minimal amount of chlorine.

- The Freshwater® III ozone system injects millions of tiny, highly concentrated ozone bubbles into the water, neutralising contaminants on contact. Standard on all models.
- The optional FreshWater_{Ag+} silver ion cartridge introduces silver ions into the water to inhibit bacteria growth.
- FreshWater MPS non-chlorine shock oxidises contaminants, removes odour, and brightens dull water.

Customised Water Care Solutions

No matter which option you choose – we have a solution to fit your needs. Our exclusive FreshWater line of high-quality, bottled water care products, plus innovations like our Vanishing Act™ calcium remover and Clean Screen™ pre-filter, allow you to start with the best water quality possible. Your Hot Spring® Sales Professional can help you choose the water care program that is right for you.

Hot Water That Does Not Give You Cold Feet

Your Hot Spring® spa will be there – hot and ready – when you need it. You can rest assured that our innovations in energy efficiency will keep energy usage to a minimum and deliver unmatched value over time.

Absolutely efficient in every way

The EnergySmart System

You will not have to worry about high energy bills because Highlife® Collection spas feature our comprehensive EnergySmart™ system, which keeps the water at your desired temperature while using the least amount of energy possible.

Totally Insulated

Full foam insulation, the same material found in commercial freezers, is applied in multiple layers of varying density to maximise energy efficiency. This exclusive technique helps eliminate gaps and voids in the foam that can increase energy usage.

We Have Got You Covered

We manufacture our own spa covers to ensure a tight seal that locks in heat. The dense foam cover features child safety locks and is UL-listed to ASTM standards for safety. Highlife Collection spas feature an energy-saving hinge seal, which prevents heat from escaping at the centre of the spa cover.

No-Fault Heater

A unique titanium housing and heater element maximise heat transfer to the water and deliver unmatched corrosion resistance. In fact, our patented No-Fault™ heater is warranted for five years, regardless of water chemistry.

Silent Circulation

The SilentFlo 5000™ circulation pump continuously circulates spa water 24 hours a day using less power than a 40-watt light bulb. A dedicated circulation pump prevents the need for the high powered jet pumps to circulate the water, reducing energy costs and wear.

Energy costs

Your actual energy costs will depend on the model you own, how often you use it, the temperature you set, the temperature outside and the cost of electricity where you live. The energy table below presents estimated energy consumption of a mid-size Highlife Collection spa. Because we believe in the importance of regular hot tubbing for wellness, our energy cost estimates are based on six days of use per week; please keep this in mind for comparison purposes.

Every Day Made Better™

Using a hot tub as part of a regular wellness routine leads to positive results for the mind and body. And time spent in your spa offers the perfect opportunity to connect with the people closest to you, free from the usual distractions. By making a soak in your Hot Spring spa a part of your daily ritual, you can get more out of each day. Make your personal wellness a priority.

We set the standard

Hot Spring has certified all models to the stringent California Energy Commission (CEC) standards and APSP 14, the US energy efficiency standard for portable spas.

Monthly Cost Estimates (6 soaks a week)

Monthly Energy Cost =

Kilowatt Hours x Rate per Kilowatt Hour

Temp = Approx. Annual Mean Ambient Temp. in Degrees Celsius

kWh = Approx. Average Kilowatt Hours per Month to Operate Spa*

Rate = Approx. Average Rate Charged per Kilowatt Hour in Euro**

Cost = Approx. Average Monthly Energy Cost to Operate Spa*

| City | Temp | kWh | Rate | Cost |
|-----------|------|-----|-------|------|
| London | 11° | 202 | €0.19 | €38 |
| Madrid | 15° | 171 | €0.22 | €38 |
| Paris | 12° | 194 | €0.16 | €31 |
| Helsinki | 6° | 242 | €0.16 | €39 |
| Oslo | 7° | 234 | €0.17 | €40 |
| Stockholm | 7° | 234 | €0.20 | €47 |

* Based on a medium-sized Highlife Collection spa set at 39°C used 6 times per week, 15 minutes with the jets on, 15 minutes with the jets off during each use. Testing conducted by an independent third party certified laboratory in a Controlled Environmental Chamber at multiple ambient temperatures using continuous Data Acquisition monitoring of watts, temperature and humidity, with all equipment rigorously calibrated to ensure data accuracy. Individual energy consumption will vary depending on water set temperature, actual consumer usage patterns, and actual environmental ambient conditions.

** Based on the rates as indicated by <http://ec.europa.eu/eurostat/>. Rates are subject to change - check with your local electricity provider for the current rate in your area.

A couple is seen from behind, relaxing in a hot tub. The man is on the left, and the woman is on the right. They are looking out over a city at night, with lights visible in the distance and mountains in the background. The sky is a deep blue, and the overall atmosphere is serene and romantic.

Advanced Controls, Simple Operation

Get lost in a conversation, not timers or temperature settings. With the most advanced and intuitive controls available, HighLife Collection spas are easy to operate.

Control functions that work *for you*

Set It and Forget It

The IQ 2020™ spa control system makes your Highlife Collection spa simple to operate, with no programming required. To heat your spa, simply decide what water temperature you like, then “set it and forget it.” In the event of a power outage, the spa automatically resumes normal operation once power is restored.

Simple Operation

Highlife Collection spas feature the latest in touchscreen spa control technology. The large waterproof, colour LCD touchscreen serves up intuitive icons and menus that are easy to read by day or night.

Ready, Set, Soak

Be confident that your Hot Spring® spa is hot and ready before you even step outside. The On/Ready indicator lights, incorporated in the Hot Spring logo on the front of your spa, can be seen even with the cover on. These lights also serve as a helpful diagnostic tool letting you know when your spa needs attention.

Your Favourite Settings

Store your favourite light and jet settings then quickly recreate your customised set-up with the simple press of a button.

Two-Way Communication

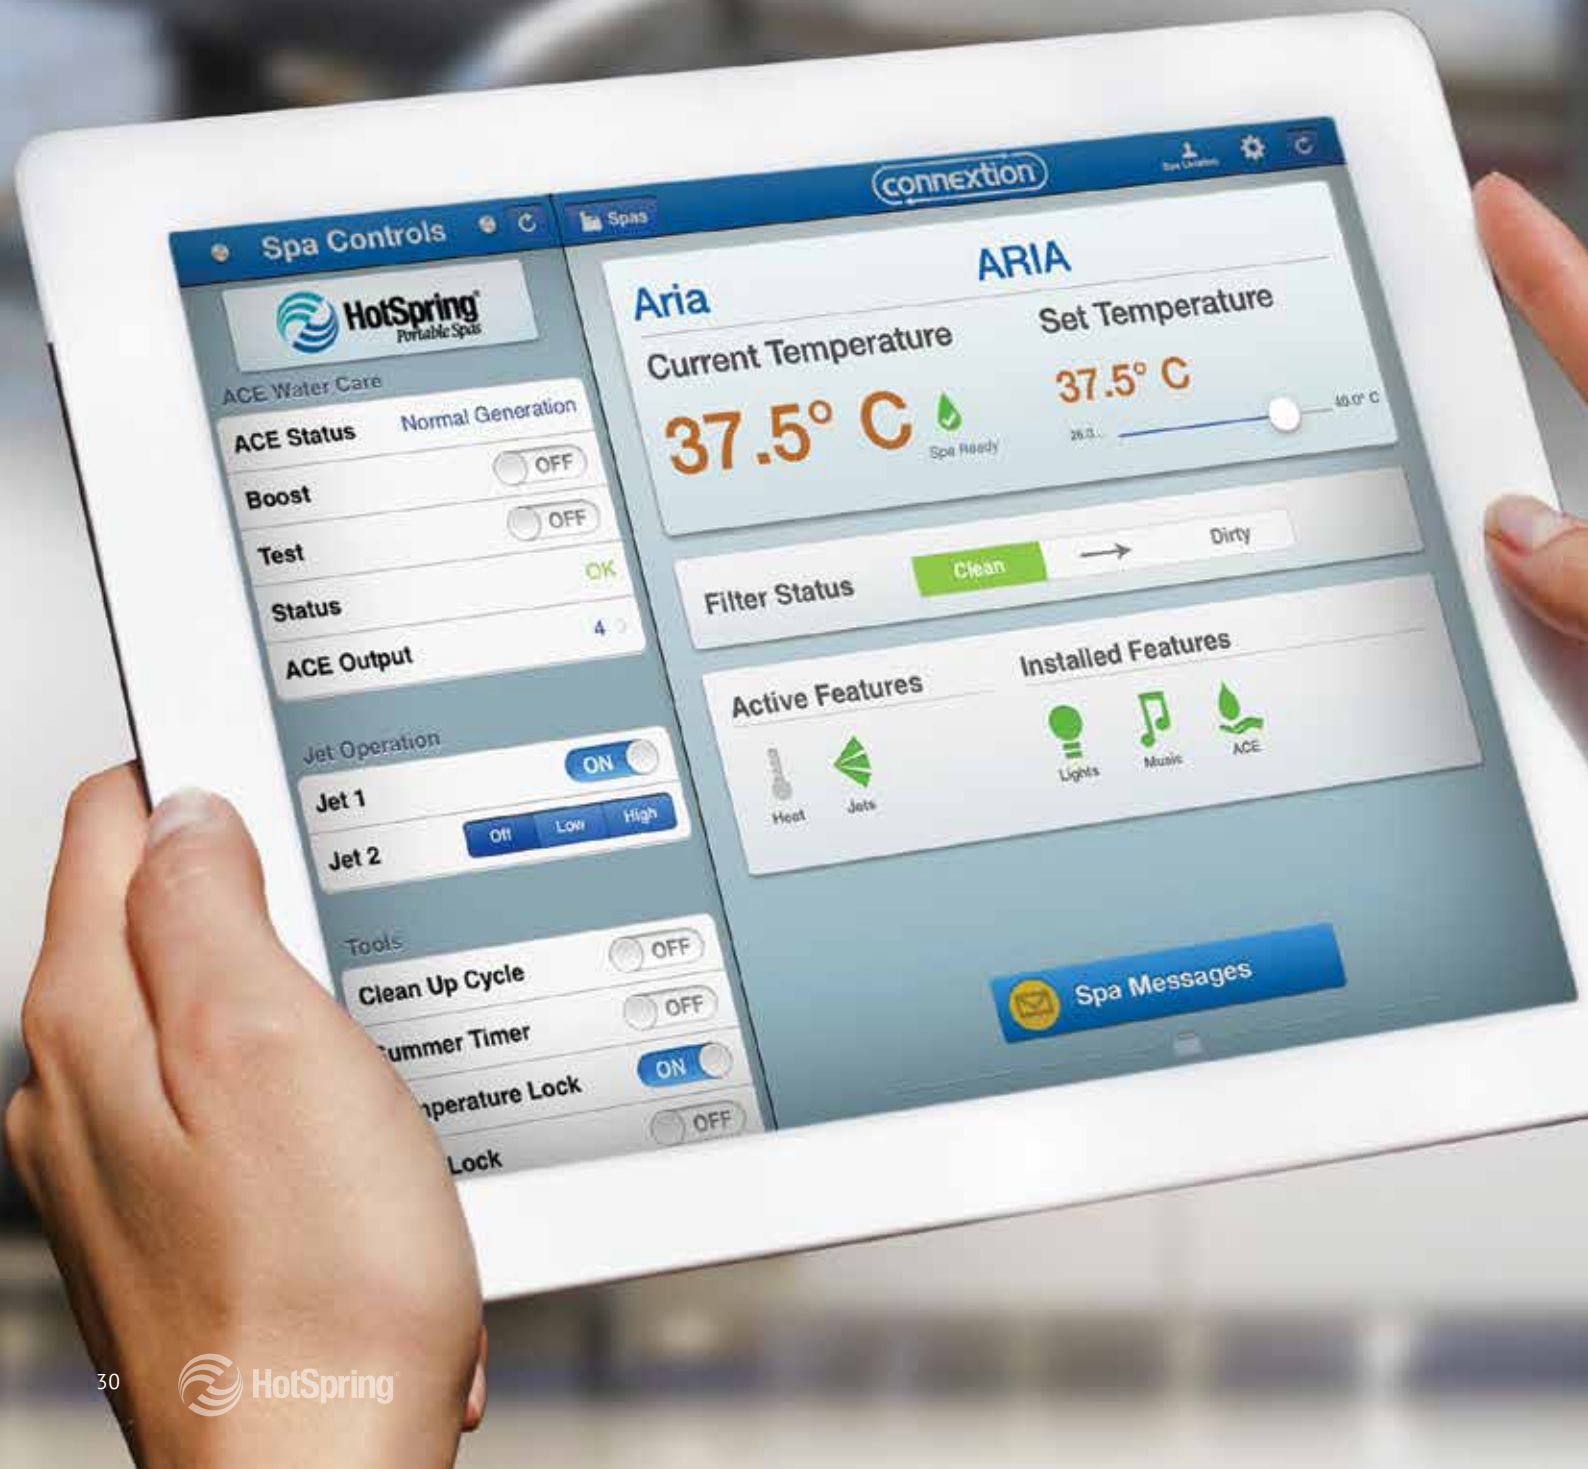

Take the guesswork out of spa ownership. Your control panel provides you with easy-to-read messages that advise you of your spa's status and let you know if attention is required.

Quick Clean

Perfect for a quick post-soak refresh, or when adding chemicals to the water, our convenient clean cycle circulates spa water for ten minutes.

Remote Spa Monitoring System

Experience a *new level* of customer care

Connect with Peace of Mind

The innovative Connexion™ remote spa monitoring system looks after your Hot Spring® spa when you cannot and gives you instant access to your spa controls from virtually anywhere in the world.

If you are on the go, want to enjoy a spa at a second home, or simply want the peace of mind that your hot tub is being monitored, the Connexion system is the ideal solution.

Technology That Simplifies Your Life

The Connexion system enables your spa to communicate with a computer or smart device through a cloud-based subscription service via your home Internet service. This patented* technology enables your Hot Spring dealer to monitor your spa, and our unique VirtualValet™ messaging feature alerts you and your dealer if your spa needs attention, so regular maintenance or service can be scheduled without delay – even when you are out of town.

Ready When You Are

The Connexion monitoring system also offers convenient remote access to many spa functions from almost anywhere, so your hot tub can be ready when you want it to be. From your PC or via the free Connexion App** downloaded on your smart mobile device, you can adjust water temperature, activate the jets, turn on the spa lock, check filter cleanliness, contact your dealer, and more.

Connexion System Features

-  Global monitoring of spa systems
-  VirtualValet messaging feature that can alert you and your dealer if maintenance or service is needed
-  Remote access to spa controls

The Connexion remote spa monitoring system is available as a dealer-installed option on all Highlife® Collection models. Ask your Hot Spring dealer for details.

*US Patents #8,688,280 and #8,838,280

** Interface only available in English

Get More From Your Hot Tub

Year-Round Enjoyment

On a cool, crisp night, there is nothing like relaxing in your spa with soothing warm water swirling around you. On a hot and sunny day, however, a cool, refreshing dip can be just as nice. With the CoolZone™ Hot Tub Cooling System, your hot tub can heat and cool the water – something that is not possible with most hot tubs. As a result, you and your family will use your hot tub more often throughout the year.

Spend More Time in Your Spa

Your hot tub is an investment, and it is important that you get the maximum usage and enjoyment from it. The CoolZone system increases your options by providing a greater temperature range than traditional spas.

Warm or cool - it is *your choice*

Your Hot Tub Just Got Cooler

With the CoolZone system, your hot tub can provide you with more than just a warm, relaxing soak. Your Hot Spring® spa can also offer a fresh, revitalising dip on a hot day after working in the garden. It becomes a cool place for the kids to swim and play* during the day and a warm-water retreat for you to unwind in later that night. For serious athletes, the option to bring the temperature of the water way down can mean soothing relief for muscles after an intense workout. The possibilities are endless.

Energy-Efficient Flexibility

Similar to the way air conditioning cools your home, the CoolZone system can cool spa water to as low as 16 °C. And when you are ready to warm things up again, it works with your spa's heater to efficiently raise the temperature in just a few hours** while keeping your energy costs low.

The CoolZone system also helps improve energy efficiency during normal hot tub operation, because it can reduce the amount of time the standard No-Fault™ heater runs in order to keep the water hot. Depending on the ambient temperature where you live, this increased efficiency has the potential to add up to real savings over time.

Is It Right for Me?

The CoolZone system from Hot Spring is an excellent option for:

-  Hot tubbers living in hot climates
-  Grandparents and families with small children
-  Athletes looking for cold therapy

The CoolZone system is a dealer-installed option on all Highlife® Collection spas. Contact your Hot Spring dealer for installation requirements and information.

**Never leave children unattended around water.*

***Depending on ambient temperature and other factors. Ask your Hot Spring dealer for details.*

Enhance your hot tub experience

Whether you are entertaining friends or relaxing with your spouse, our wireless sound system adds another layer of enjoyment to your experience. You can add these dealer-installed options at any time.

Entertain from *inside* or *outside* your spa

Wireless
Entertainment

Hot Spring® spas are “entertainment-ready”, which means these dealer-installed options can be added at any time!

Solid Sound

Add wireless entertainment to your Highlife® Collection spa. Marine-grade speakers are installed in the bartop to ensure robust, high-quality sound. Enjoy audio from inside or outside the spa with these durable pop-up speakers.

Wireless Entertainment with Bluetooth Technology

Bluetooth®

Stream audio from an online source or use your own library of songs. The choice is yours with our easy-to-use sound system featuring Bluetooth®

wireless technology. The sound system features a powerful amplifier and optional subwoofer for increased volume and richer bass tones.

High-Definition Hot Tubbing

Entertainment makes a big splash with an optional 56 cm high-definition display. HDMI and USB connectors accommodate a variety of streaming and cable devices. This monitor pairs with the optional wireless entertainment system.

Easy Access for Daily Use

You will enjoy your spa more often with the added convenience provided by these Hot Spring® necessities™. These products are specifically designed for your Highlife® Collection hot tub, so you can get the most out of your hot water experience. Do not compromise your warranty or your investment by choosing other brands. Insist on genuine Hot Spring necessities.

Open Sesame

Our patented cover lifters make removing and replacing the spa cover easy. By eliminating the need to drag the cover on and off the spa, and keeping it from ever touching the ground, our lifters can help extend the life of your cover. There are four Hot Spring cover lifters available to meet your needs.

CoverCradle

Let the CoverCradle™ cover lifter do the heavy lifting for you! For the ultimate in ease, this robust cover lifter offers an ultra-smooth gliding mechanism and the support of dual 18 kg pneumatic springs to support a cover of any size. Requires 61 cm clearance (actual clearance may vary depending on spa model and location).

CoverCradle II

The CoverCradle II is a lighter duty version of the original CoverCradle. Using a single 18 kg pneumatic spring, this cover lifter makes removal a snap. Requires 61 cm clearance (actual clearance may vary depending on spa model and location).

UpRite

Ideal for tight spaces and recessed spa installations, the UpRite™ cover lifter also provides an element of privacy by holding your folded cover in a vertical position. Requires 18 cm clearance (actual clearance may vary depending on spa model and location).

Lift 'n Glide

The Lift 'n Glide™ cover lifter is simple to operate: lift the cover, glide it back and enjoy. Requires 36 cm clearance (actual clearance may vary depending on spa model and location).

Step Up To Splendour

Entering and exiting your hot tub is easy with a custom-designed Hot Spring spa step. We offer a variety of steps, so you can select the one that best meets your needs.

Everwood HD

Made from the same high-definition wood alternative as the spa cabinet, Everwood™ HD steps feature a modern design, matching colours, and will look great for years.

NXT Step

Developed in conjunction with the exclusive Highlife Collection NXT spas, this contemporary step features Everwood HD siding on each tread, making it a great match for the entire Highlife Collection.

Polymer

Durable and lightweight, this step provides a stable entry point into your hot tub. The Polymer step is offered in colours that complement the Everwood HD siding. They are eco-friendly – made from 100% recyclable material.

SpaStone

With an extra-large surface area and rich texture, this is a must-have for spas with SpaStone™ siding. A gentle non-slip surface provides enhanced stability.

Spa Side Complements

With these thoughtful spa additions, you can outfit your spa with everything needed for a great experience.

Spa Side Umbrella

Bring shade to your spa with the 360° rotatable spa side umbrella. Constructed from powder-coated aluminum and zinc-plated steel, this umbrella is rust-resistant with a base plate under the spa cabinet for stability. The 3 metre diameter canopy is available in Crème or Navy Blue.

Spa Side Handrail

This handrail's base plate slips securely under the spa cabinet for stability, and conveniently swings over the top of your spa – making it easy to reach when entering or exiting. It also features a battery powered LED light for added convenience and safety at night.

Spa Side Towel Tree

Keep your towel within reach with this easy-to-assemble towel tree, constructed from powder-coated aluminum with a bronze finish that provides a stylish and convenient addition to your hot tub.

Just a Few of Our Hot Spring Retailers

Your Local Connection

Hot Spring® retailers are experienced professionals and passionate hot tubbers. They are among the very best retailers in the world. Many of them have been selling and supporting the Hot Spring brand for over twenty five years – and some even longer. With more than 850 sales and service locations worldwide, no matter where you live, you are likely to find an established Hot Spring retailer close by.

Trained Professionals

Our local retailers participate in a wide variety of ongoing training to ensure that they are prepared to serve and support you. So, when you choose Hot Spring, you can expect to encounter helpful sales professionals, skilled service technicians, and a knowledgeable retailer who is committed to taking excellent care of you for as long as you own your spa.

Excellent Customer Care

Customer Care You Can Count On

Purchasing a hot tub is, in many ways, like purchasing a car. Your new spa is a significant investment that you will have for years, and over time you may have questions or require some basic service and maintenance support.

With that in mind, it is important that you purchase your spa from a reliable local retailer you can trust. You will need someone to answer your questions, guide you to the model that is right for you, and be there if you need help – even years after your spa purchase.

A modern, two-story house with a large glass wall and a dark wooden slatted upper level. A man and a woman are relaxing in a large, light-colored hot tub on a green lawn. The hot tub has a wooden finish and a set of steps. To the left, there is a small outdoor seating area with a table and chairs. The sky is blue with some clouds.

The Absolute Best Hot Tub Ownership Experience

At Hot Spring®, we are committed to providing you with The Absolute Best Hot Tub Ownership Experience™, which means you can count on excellent quality and customer care from our team, as well as from your local Hot Spring retailer.

A Name You Can Trust

Over the years we have built Hot Spring Spas' reputation on quality, and we continue to stand behind the products we sell. As the world's best-selling brand, you can find a Hot Spring spa in more gardens around the world than any other brand. We are the brand of choice in over 70 countries. Many of our customers have owned their Hot Spring spa for decades, and have purchased two, three, or even four Hot Spring spas over their lifetime.

Unparalleled Customer Care

Our Customer Care Representatives go above and beyond to ensure that we deliver on our promise, and they are not the only ones. Our team at Watkins Wellness, makers of Hot Spring spas, is dedicated and experienced with an employee tenure exceeding thirteen years. Our culture of integrity, and our commitment to excellence and serving our customers, is what has made us the industry leader.

Committed to Quality

We are passionate about making the world's best hot tubs and are consistently recognised for outstanding quality and value.

We have received trade-certified recognition by Spasearch.org for ten consecutive years – every year since the certification was introduced.

Our quality system is certified by Lloyd's Register in accordance with ISO9001:2008, the highest international standard for design and manufacturing excellence.

Hot Spring is the only brand that has built and sold more than one million hot tubs.

Hot Spring spas are made by Watkins Wellness, which is a part of Masco Corporation – a Fortune 500 company whose family of quality home products includes:

Vanguard shown with Ice Grey shell

*Vanguard shown with Ice Grey shell /
Monterey Grey cabinet and Everwood™ HD step*

“Now that we are in our Vanguard spa every day we keep asking ourselves why we did not buy this ten or fifteen years ago. For sure, we will never be without a Hot Spring® spa in the future!”

- Vanguard Owner

ARIA™

HighLife® Collection

Seating Capacity

5 adults

Dimensions

221 x 221 x 91 cm

Water Capacity

Aria shown with Alpine White shell

*Aria shown with Alpine White shell /
Monterey Grey cabinet and Everwood™ HD step*

"The Aria spa is actually better than a massage therapist! My wife and I have learned that if we leave the jets on and rotate around the seats, it is almost like getting a full body massage. Wow! We never expected that."

- Aria Owner

SOVEREIGN™

Highlife® Collection

Seating Capacity

6 adults

Dimensions

1,200 litres

Jets

28

Sovereign shown with Alpine White shell

*Sovereign shown with Alpine White shell /
Mocha cabinet*

*"The quality is outstanding.
I have not had even one issue
with the spa. Easy to maintain. Hardly
noticed the small amount of electricity
this uses."*

- Sovereign Owner
